

I have been a XM radio listener for over a year. The quality of service they provide to listeners cannot be found anywhere else. Although Atlanta does not yet have the traffic service, it would be most useful to sales people like me who are in and out of traffic all day. FM stations only provide traffic in the early AM and Late PM and AM stations are flooded with commercials and talk radio. The National Association of Broadcasters want to dictate what I am permitted to hear. I am asking you to please reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that all Americans deserve.
